Manson Supreme

I bought a Manson Supreme for my Sun Odyssey 52.2 after carefully investigating all current research on anchors. I was amazed at the poor performance of some of the traditional anchors which those studies revealed and what appeared to me to be inherent problems with some of the new models.

The Manson Supreme, however, looked to me to be by far the best option and it has certainly not disappointed me since I have used it.

I cannot believe the holding power of this anchor. Whereas, the Bruce of similar size I used before would always break out easily, this thing is almost impossible to get out of the ground! I am yet to put it through a test with a big storm but know that I will have great confidence in its holding power based on what I have already seen.

All the best with product.

Cheers
